MEDICINAL.

Few people can understand the feelings of the 1 igilist as he is being counted out. He hears the seconds ticked off. He struggles to rise, but struggles in vain. He has lost the fight.

There are some who are making a losing fight for life that can appreciate this; those whose lungs are diseased. With every tick of the watch, they know that they are being counted out.

The great question is how can a quick rally be made to continue the fight against disease? Many who have asked that question have found a satisfactory answer in the use of Dr. Pierce's Golden Medical Discovery. It cures bronchitis, Medical Discovery. It cures bronchitis, obstinate, deep-seated coughs, hemorrhage, night-sweats, emaciation, and other conditions which if neglected or unskilfully treated may find a fatal termination in consumption.

termination in consumption.

"When I commenced taking Dr. Pierce's Golden Medical Discovery," writes Mr. John T. Reed, of Jefferson Co., Ark, "I was very low with a cough, and would as time spit up blood. I was not able to do any work at all, was weak and my head was dizzy. The first bottle I took did me so much good that I had faith in it and coutinued until I had taken twelve bottles. Now I do not look like nor feel like the same man as I was a year ago. People were astonished and said they did not think I could live. I can thankfully say that I am entirely cured of a disease from which had it not been for your wonderful 'Discovery'I would have died."

There are cures behind.

There are cures behind every claim ade for the "Discovery," which no just as good" medicine can show.

As a matter of reference, the Gazette, for about two ecore years, has been publishing on the last day of each year the names of adult Alexandrians who have died during the preceding 365 days. In accordance with the custom the mortuary list of 1901 is appended. The number is within the average. It is unnecessary to comment upon what may be termed the tombstone column of today's paper. Each line represents some darkened household and reproduces reminiscences sad to ponder over. It is the fiat of nature and the silent reaper has been at work for the past six thousand years and will con-
